

## HONDA CONTINUOUS VARIABLE TRANSMISSION (CVT)

**REFERENCE : Y5623**

*Non contractual photo*

**SERVICE :**

- CVT is partially dissected and processed in different colors to visually display the structure of the internal components.

### Educational Objectives :

- CVT transmission of the overall element identification.
- CVT transmission peripheral parts identification.
- CVT transmission pump structure, working principle and detection.
- CVT transmission structure, working principle and detection.
- CVT transmission wheel hub structure, working principle and detection.

### Technical specifications :

- Composition : Honda CVT transmission assembly and ancillary components.
- Size : 1,200 X 900 X1,800 mm
