

HYDRAULIC POWER BENCHES

REFERENCE : 402B-EX408B

The EX402B module provides a closed circuit water supply for hydraulic experiments. It includes an electric pump and a storage pump mounted on a rigid chassis.

Technical specifications :

The EX408B module can be used with the EX402B module for volumetric flow measurement.

Non contractual photo

**SERVICE : POWER SUPPLY (220 / 240V,
50HZ) ARRIVAL AND EVACUATION OF
WATER
DIMENSIONS : 700 X 450 X 800**

WEIGHT : 20KG
